Our mission:

Fostering long-term, trusted relationships with our customers by aggressively representing their interests in the marketplace

Your Trusted Advisor for Insurance, Bonds, and Employee Benefits

As a leading source for surety bonding and comprehensive insurance programs to the construction industry, Insurance Associates relies on a simple business philosophy: we aggressively represent the interests of our customers in the marketplace. For over 50 years, we have developed relationships with insurance and bonding companies that have demonstrated the appetite and delivered the products and services that meet the needs of the construction industry.

Your Trusted Advisor

As a member of your core group of advisors, Insurance Associates continually keeps you abreast of industry changes and how these changes impact each facet of your Surety, Business Insurance and Employee Benefits programs. This trust is a responsibility that your Insurance Associates Account Manager takes very seriously.

Construction Experts

Construction insurance and bond-related issues can be very complex. As experts in the field of construction insurance, you can rely on us to use the necessary tools to tackle these issues. However, our job doesn't end with solving your problems. Because we work almost exclusively with contractors, we always have our fingers on the pulse of the construction community.

Insurance Associates uses this insight to help our customers evaluate potential clients, general contractors, and subcontractors. In addition, we have strong relationships with CPAs, bankers and attorneys who also specialize in construction, which gives our company additional valuable insight into the construction market. We are active in all of the leading contractor organizations in our region.

Independently Owned and Operated

Insurance Associates is strategically located in the Mid-Atlantic region with full service offices in Rockville, MD, and Fairfax, VA. Through these two offices, we service the local, regional, national and international needs of our construction clients. We are among the few insurance agencies in this region that specialize in construction risks.

We are a local, employee-owned company that prides itself on having one of the most competent, experienced, and longest tenured staffs of any agency in the Mid-Atlantic region. The depth that we bring to the table is second to none. We foster a collaborative, team-oriented environment, so that each one of our customers is surrounded by highly skilled individuals who know their business and can solve their problems promptly and efficiently.

We've been with Insurance Associates for over 30 years because they know everything there is to know about construction insurance and bonding.

- Bob Johnson, President, Johnson Crane

Construction Insurance

Since 1956, Insurance Associates has specialized in providing responsive, creative solutions in the areas of construction insurance, claims management, and risk control. Each of our clients has a dedicated Account Manager who is responsible for making sure that your needs are being met in each of these areas. We do not focus on *renewal dates*; we work with our clients throughout the year to keep them informed on industry trends, changes, and issues. To us, the renewal date is no different than any other day of the year.

Trusted, Long-Term Relationships

Our extensive construction experience allows us to tailor specific insurance programs to protect your business and personal assets.

Equally as important as the relationships with our customers are the relationships that Insurance Associates has with our insurance company partners. These relationships are based on trust and the confidence that they have in our construction expertise. These special relationships with our carriers afford us added consideration to solve the tougher insurance issues that contractors face every day.

Surety Bonds

Construction contractors have very distinct and specialized bonding needs. They require advisors with specific experience - who really understand their business and its unique aspects - and who can negotiate the intricacies involved in presenting cases to the bonding company. Your Insurance Associates Account Manager serves as an objective, external resource for evaluating your financial, managerial and operational capabilities and, when necessary, will suggest improvements to help you meet a surety company's underwriting requirements. Whether it's obtaining your first bond, undertaking the largest project in your history, or navigating through an ownership transition or ESOP transaction, we will work with you to secure the surety program you need.

A Well-Earned Reputation

Our firm represents all of the leading contract surety companies in the country. We enjoy an extremely close relationship with each of them that is built on our reputation of trust and integrity. We have also nurtured personal relationships at the Home Office level of each of our surety company partners, which gives our customers access to the ultimate decision makers. As a member of the National Association of Surety Bond Producers (NASBP), Insurance Associates is dedicated to the highest levels of professionalism and expertise in surety.
